GAS DISCHARGE TUBES

### New Product Training Module for Bourns® T-Series Fast Acting Gas Discharge Tubes

Riverside, California - May 23, 2012 - Bourns is pleased to announce the release of the new Technical Training Module for the Bourns® T-Series Fast Acting Gas Discharge Tubes.

This Product Training Module's purpose is to introduce the Bourns® GDT T-Series products, designed as the latest circuit protection technology available to the market.

Please read through the module, which can be found at [www.bourns.com/Training.aspx](http://www.bourns.com/Training.aspx) under *Technical Training*.

The screenshot displays the Bourns website interface. At the top, the Bourns logo is on the left, and navigation links (About Us, News, Blog, My Bourns, Partner Portals, Sales, Contact, Careers, Languages) are on the right. Below the logo is a navigation menu with categories like Products, Services, Applications, Design Kits, Library, Support, RoHS, and Training. A search bar is also present. The main content area is titled 'T-Series GDT' and features a large image of three red cylindrical gas discharge tubes. To the left of the tubes is a vertical bar with a green top section and a purple bottom section. The text 'Bourns® T-Series Fast Acting GDTs' is prominently displayed. Below the image, there is a link to 'Download stand-alone GDT Protection Devices Training Module.' On the left side of the page, there is a sidebar with a 'Product Training' menu and a 'Bourns 3-minute video!' thumbnail.

Any comments/questions should be addressed to Bourns Marcom at [bourns.marcom@bourns.com](mailto:bourns.marcom@bourns.com).
