Bourns® Design Kit CM453232-LAB1 has Changed to CC/CM453232-LAB1

Effective immediately, Bourns is replacing the Design Kit CM453232-LAB1 with [Design Kit CC/CM453232-LAB1](#). The new expanded Design Kit contains most of the original CM453232 Series of non-shielded, encapsulated, 1812 size chip inductors and it will now also include the CC453232 Series of shielded, encapsulated, 1812 size chip inductors.

Please see the charts below for the design kit numbers and corresponding part numbers.

Should you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#).
