Sean Silas Signature Series Guitar Potentiometer Released

Riverside, California - January 18, 2016 - In line with our commitment to provide our customers with innovative products, Bourns® Pro Audio is proud to announce the release of our “Sean Silas Signature Series Guitar Potentiometer.” This custom guitar potentiometer has been meticulously designed to Sean’s dynamic playing style and is suitable for guitar players in the hard rock genre. This exciting new product is suitable for use as a guitar volume control.

The Sean Silas Signature Series Guitar Potentiometer features:

- Knurled shaft for press fit knobs, or plain shaft set screw mounted knobs
- 500k ohm resistance value for use with humbucking or “hot” pickups
- Custom audio taper for precision setting
- Low noise output for a clean signal
- Dampened rotational torque for a smooth feel
- RoHS compliant*

Part Number	Shaft Style	Bushing Style	Resistance Value (Ohms)	Taper
PDB241-SOTL1-504A3	Knurled	Standard	500k	Audio
PDB241-SOTL2-504A3	Plain	Standard	500k	Audio

Production quantities are now available. An information flyer with product features is available at www.bourns.com/proaudio.
